Telephone	Berlean – 647-270-5087 Ryan Tomer - 416 792 5141 Akeen – 647 937 8162 Margaret - 647-544-7479
Project Title	
Project Description	**About the company:** Our company is dedicated to improving efficiency, security, and communication between businesses and their customers during on-site visits. **About the project:** The IRes Electronic Receptionist application enables businesses to streamline front-end customer interactions.

Problem/ Opportunity Assessment *	*Please describe current state problem/opportunity that describes the nature and extent of the problem (factual, quantified, concise), or that outlines a chance for advancement or progress.*	
	1.	1. Traditional receptions often lead to long wait times and inefficiencies.
	2.	2. Managing many visitors could overwhelm reception staff and lead to errors.
	3.	3. Manual processes can struggle with ensuring visitor security and data protection compliance.

Desired Project Outcomes/ Requirements*	*Define how this project shall address a business need, e.g. the business problem or opportunity described above; describe what the beneficiary must be able to do / receive from the solution*	
	1.	1. Users should be able to enjoy a seamless and quick check-in experience through a mobile app, reducing frustration and saving time.
	2.	Administrators should be able to easily manage visitor logs, track real-time data, and generate detailed reports (What company were selected, time and date of visit, Purpose of visit, number of visitors for specific company).

Key Deliverables to be produced by students*	*Define the boundaries of work that you expect to receive from the student's effort (vs. internal effort)*
	1. Margaret - Backend 2. Ryan - Database 3. Akeen – Determining Technical and Business requirements 4. Berlean – Frontend 5. Tomer - Backend
Desired Start Date	September 12, 2024
Desired End Date	November 21, 2024
